1. These notes cover all the topics [redacted] listed, with a 25X1A reasonable amount of factual back-up. The result is obviously much too long. I'm afraid covering all this ground in the time allotted would reduce you to a recital of generalities, and have therefore marked in red pencil a number of suggested cuts. *(from 49 pp to 21)*

2. We have not attempted to follow [redacted] outlines, as 25X1A this would involve (for instance) discussing the Soviet leadership in 1, again in 2a and again in 2i. Rather we have used the usual round-the-world outline, including in each section the look backward asked for in 1. and the look forward asked for in 2. 2f is discussed in several sections where population growth is an immediate problem. 2g is covered only implicitly.

3. I am available through the Watch Office this week-end if you want any further work.
